Subject: Update -- Passaic River cleanup plan

Hello all -- As you know, EPA is in the final stages of completing its proposed cleanup plan for the lower 8 miles of the Passaic River, one of the nation's most contaminated waterways – the extremely complex nature of this project, and extent of this contamination, requires that we proceed with the utmost care – we will continue to keep you apprised as we work out the final details and prepare to publicly announce our plans.

Thanks.
